

## SSH 2016: The 4<sup>th</sup> International Workshop on Service Science for e-Health

Co-located with 18th IEEE International Conference on  
e-Health Networking, Application & Services (HEALTHCOM 2016)

Munich, GERMANY – September 14-17, 2016

<http://www.ssh2016.pwr.edu.pl/>

### Workshop organizers

**Paweł Świątek**  
Wrocław University of Technology  
Poland

**Jolanta Mizera-Pietraszko**  
Opole University  
Poland

### Programme Committee

**Raf Brouns**, Center for Neurosciences, Vrije Universiteit Brussels, Brussels  
**Tereq Alhadidi**, Prince Sattam bin Abdulazizi University, Saudi Arabia  
**Jordi Mongay Batalla**, Warsaw UTech PL  
**Cyril Bergeron**, THALES Communications  
**Gerald Bieber**, Fraunhofer Institute for Computer Graphics- Rostock, DE  
**László Bokor**, Budapest University of Technology and Economics, Hungary  
**Krzysztof Brzostowski**, WUUniv of TechPL  
**George Demiris**, Univ. of Washington, US  
**Jaroslav Drapała**, Wroc Univ of Techn PL  
**Maciej Drwal**, Wrocław Univ. of Techn, PL  
**Markus Fiedler**, Blekinge Institute of Technology Sweden  
**Lukasz Falas**, Wrocław Univ. of Techn, PL  
**Andera Gaggioli**, Applied Technology for Neuro-Psychology Lab, I.R.C.C.S. Istituto Auxologico Italiano, Psychology Departm, Università Cattolica del Sacro Cuore, Italy  
**Haijing Hao**, University of Massachusetts, Boston, USA  
**Piotr Krawiec**, Warsaw Univ. of Techn, PL  
**Stefan Goebel**, TU Darmstadt, Germany  
**Adam Grzech**, Wrocław Univ. of Techn, PL  
**Zviad Kirtava**, Tbilisi State Medical University, Georgia  
**Andreas Kliem**, Technische Universität Berlin, Germany  
**Grzegorz Kołaczek**, Wroc Univ of TechPL  
**Ernö Kovacs**, NEC Europe Ltd, GE  
**Piotr Krawiec**, Warsaw Univ of Tech, PL  
**Alex Kuo**, Health Information Science, Univ. Of Victoria, USA  
**Lenka Lhotska**, Czech Technical Univ, CZ  
**Lili Liu**, Faculty of Rehabilitation Medicine, University of Alberta, Edmonton, USA  
**Michael Marschollek**, Medizinische Informatik Peter L. Reichertz Institut TU Braunschweig und MHH, DE  
**Goran Martinovic**, Faculty of Electrical Engineering J. J. Strossmayer Univ of Osijek, Croatia  
**Marek Natkaniec**, AGH Univ. of Science PL  
**Augusto Neto**, Federal University of Rio Grande do Norte Centro de Ciências Exatas da Terra, Brazil  
**George Perry**, University of Texas at San Antonio Neurosciences Institute, USA  
**Andrzej Ruciński**, Emory Univ Atlanta US  
**Silvina Santana**, Research Unit in Governance, University of Aveiro, Portugal  
**Patryk Schauer**, Wroc Univ of Techn, PL  
**Adérito Seixas**, Universidade Fernando Pessoa, Portugal  
**Emmanouil G. Spanakis**, Institute of Computer Science, Univ. of Crete, Greece  
**Paweł Stelmach**, Wroc Univ of Techn, PL  
**Irene Tagliente**, Clinical Healthcare, Univ. of Cassino & Southern Lazio, Italy  
**Halina Tarasiuk**, Warsaw Univ of Tech PL  
**Vicente Traver-Salcedo**, Universidad Politécnica - Valencia, Spain  
**Maciej Zięba**, Wrocław Univ of Techn, PL  
**Tjalf Ziemssen**, Neurology Center of Clinical Neuroscience, TU Dresden, DE

## CALL FOR PAPERS

Recent technological solutions in computing and networking have largely made remote health services accessible worldwide. However, the key requirements for making a full potential of any healthcare systems include ubiquitous access to medical services, their personalization encompassing specific functionalities, broadly understood security of the patient's personal data, openness to new networking technologies and techniques for the purpose of flexible management of the quality of service (QoS) and the considerable experience of the healthcare systems' developers.

Service science is an emerging interdisciplinary approach to design, implement and evaluate complex service systems. It integrates science with ICT technologies and business to provide a value added domain-specific applications of service-based systems. The application of service science to the e-Health area is a natural tendency to build platforms, software which meet both the current and future demands of the healthcare domain.

The core objective of the workshop is to bring together delegates from academia, industry and healthcare business to present recent advances in the field of e-Health. High quality interdisciplinary papers that present innovative solutions in service science for healthcare systems are the most welcome. Prospective authors are invited to submit their original contributions covering completed or ongoing work related to the area of service science for healthcare.

The topics of interest include but are not limited to

- e-Health services design and implementation
- Business models for e-Health services' delivery
- Cloud computing for e-Health
- Internet of Things for e-Health
- Middleware for e-Health services
- Models and methods for decision making support in the healthcare domain
- Network architectures for e-Health
- Service-based e-Health systems
- Virtual and augmented reality for e-Health
- Wireless access to e-Health services
- Mobile Health solutions
- ICT-Mediated medical information exchange

## PAPER SUBMISSION

Prospective authors are invited to submit their papers using the EDAS System at <https://edas.info/newPaper.php?c=22498&track=80455>. A full paper should not have more than five (5) IEEE style pages including the results, figures and references. All the papers will be reviewed using the standard reviewing procedure (by at least 2 independent anonymous reviewers). Accepted papers will be published on IEEE Xplore (<http://ieeexplore.ieee.org/>). Authors of selected papers will be invited to submit extended versions of their papers in the following international journals:

- *Artificial Intelligence in Medicine*, <http://www.journals.elsevier.com/artificial-intelligence-in-medicine/>, Elsevier  
Impact Factor: 2.019, Source: 2014 Journal Citation Reports® (Thomson Reuters, 2015) - confirmed
- *Statistical Methods in Medical Research* <http://smm.sagepub.com/>, SAGE Publishing  
Impact Factor: 4.472, Source: 2014 Journal Citation Reports® (Thomson Reuters, 2015) – to be confirmed
- *Computers in Human Behaviour* <http://www.journals.elsevier.com/computers-in-human-behavior/>, Elsevier  
Impact Factor: 2.694, Source: 2014 Journal Citation Reports® (Thomson Reuters, 2015) – confirmed

Note: The IEEE reserves the right to exclude a paper from distribution after the conference (including its removal from IEEE Xplore) if the paper is not presented. To be published in the IEEE SSH 2016 Workshop Proceedings and to be eligible for publication in IEEE Xplore®, an author of an accepted paper is required to register for the workshop and the paper must be presented by an author of that paper at the workshop unless the TPC Chair grants permission for a substitute presenter arranged in advance of the event and who is qualified both to present and answer questions. Non-refundable registration fees must be paid prior to uploading the final IEEE formatted, publication-ready version of the paper. For authors with multiple accepted papers in the workshop, one registration is valid for up to 2 papers. Papers will be published in the IEEE HEALTHCOM 2016 Workshop Proceedings and submitted to IEEE Xplore®.

### Important dates

- **Paper Submission:** July 10, 2016
- **Notification of acceptance:** July 25, 2016
- **Submission of camera-ready papers:** August 30, 2016
